

# Fontana Signs The House Of Love

Phonogram UK's in-house label Fontana has signed The House Of Love in a major worldwide deal. The band have been courted by virtually all the major labels over the last few months but chose Phonogram "because the label is more in keeping with the group's style and direction".

The House Of Love have just finished a sold-out tour of the UK and will shortly begin work on new material to follow up their hit indie LP *The House Of Love* and the single *Destroy The Heart*.

The choice of Phonogram is disappointing news for CBS UK, who in Music & Media issue 43, said they regarded the group as one of their hopes for the future. ■
