House Of Love "Beatles & Stones" (Fontana/Mercury) "Beatles & Stones" is a perfect song, lyrically appealing to upper demos, while cutting a very 90s edge with its atmospheric hook. WLAV, WMAD and four more waste no time going with the tune. If you haven't heard the song yet, check it out off the new **Album Network CD Tune Up #52**.

Toy Matinee "Last Plane Out" (Reprise) CHEZ is the newest recruit for the "progressive" and hip "Last Plane Out." We frankly can't understand why more stations haven't given this one at least a test shot, especially in markets that have a strong "progressive" fan base. Take another listen and we think you'll be surprised by this band's depth and musical credibility.
