House Of Love, "Live" (FONTANA/
MERCURY)

This was a pleasant surprise package to open, a five song souvenir of House Of Love's American tour. All the tracks were taken from a show that WXRT sponsored at Cabaret Metro in Chicago on June 2. The audience was loving every minute of it, and you will as well. "Never", "Beatles And The Stones" and "In A Room" are taken from the latest album, and Guy's gang reach back to their debut effort for "Road" and "Christine". Just the ticket to inject fresh life into an album that's already a staple in your studio. (MM)
